

2024 BREEDERS DIRECTORY

This directory shows selected Breeders who have applied for a listing here, and have been approved by the WKC Board.

Each Breeder listed must have a long-standing record of breeding high quality Kelpie lines, offer exemplary service to buyers, and has agreed to satisfy a number of additional conditions as detailed in the WKC "Breeders Directory By-Laws".

NOTE: The WKC recommends that Buyers always confirm the Registration Status of each dog, and obtain a written copy of the Breeder's Guarantee conditions, prior to making a purchase.

NOTE: This list is a limited selection from over 4,200 Breeders who have been registered by the Working Kelpie Council since 1965.

Applications for the WKC Breeders Directory must be made using the prescribed form, together with a list of all breeding stock and their working styles, and new applicants must be approved by the WKC Board. Breeders Directory listings are valid for one calendar year, and all Breeders must re-apply each year to re-affirm their agreement to comply with the special conditions and to update their breeding stock list. Breeders who choose not to correctly renew each year are automatically removed from the listing.

Please note that the WKC accepts no responsibility for statements, opinions expressed or offers made by Breeders .
